Information about Connector 365 Apps onPrem

Development of the apps always based on the current MS Dynamics BC SaaS version.

Developments and maintenance of the Connector 365 product line is done on the current BC SaaS version.

Apps for onPrem that do not have the same version to SaaS require a paid deployment or downgrade depending on the BC onPrem version & lifecycle. CUs are also considered as a version. Requested objects will always be provisioned from the latest app version for the project. Please note the lead time! If multiple versions are required within the project, the deployment / downgrade costs are to be borne multiple times.

Purchase license - Maintenance is mandatory in the first year. Maintenance is 18% per year of the license value and is due in advance. Maintenance is automatically renewed for 1 year if not cancelled 1 month before expiration.

Subscription - Maintenance is already included in the subscription. Here, a minimum term of 12 months applies when purchased in licensing. The subscription is automatically extended by a further 12 months if not cancelled in writing 1 month before expiry. The subscription is billed once a year in advance. There is also the possibility of a monthly payment and notice period, with a surcharge of 30% on the license price.

Maintenance - Maintenance entitles you to updates within the purchased product line.

If you update your BC onPrem to a new version, there is only a free entitlement to the current version analogous to the SaaS version. All versions that do not have the same version to SaaS require a paid deployment/downgrade depending on BC onPrem version & lifecycle. Requested objects will always be provided from the latest app version for the project. Please note the lead time!

If multiple versions are required within the UpDate project, the deployment / downgrade costs are to be borne multiple times. CUs are also considered as a version.

With maintenance, it is also possible to switch to SaaS, except for the pdfPaper app.

Services - Services used in the form of installation support, support, consulting services and/or training will be charged at an hourly rate of 125€ on a time and material basis in 0.25 units.

Deployment/downgrade costs of flat 125€/per app inside & flat 175€/per app outside the lifecycle. If an on-site deployment is requested, additional travel costs and expenses of 0.70€ per KM driven will apply.

Note on price changes - We reserve the right to either create new apps or raise prices depending on the scope of new features in the respective apps. We will inform in time! The change will then be adjusted from the next runtime.

Trial versions can be requested for all apps onPrem. Possibly deployment and downgrade costs may apply.

Errors & price changes reserved. All prices are exclusive of VAT.

Information about Connector 365 Apps on AppSource

***Annual subscription** - The annual subscription has a term of 12 months. The subscription is automatically extended by one year if not cancelled in writing 1 month before expiration. A change to a monthly subscription can be made at the end of the term. The annual subscription is due once in advance.

***Monthly - Subscription** - The subscription is automatically extended by one month if not cancelled in writing 1 week before expiration. A change to an annual subscription is possible at any time.

For a monthly subscription, only payment by direct debit is possible.

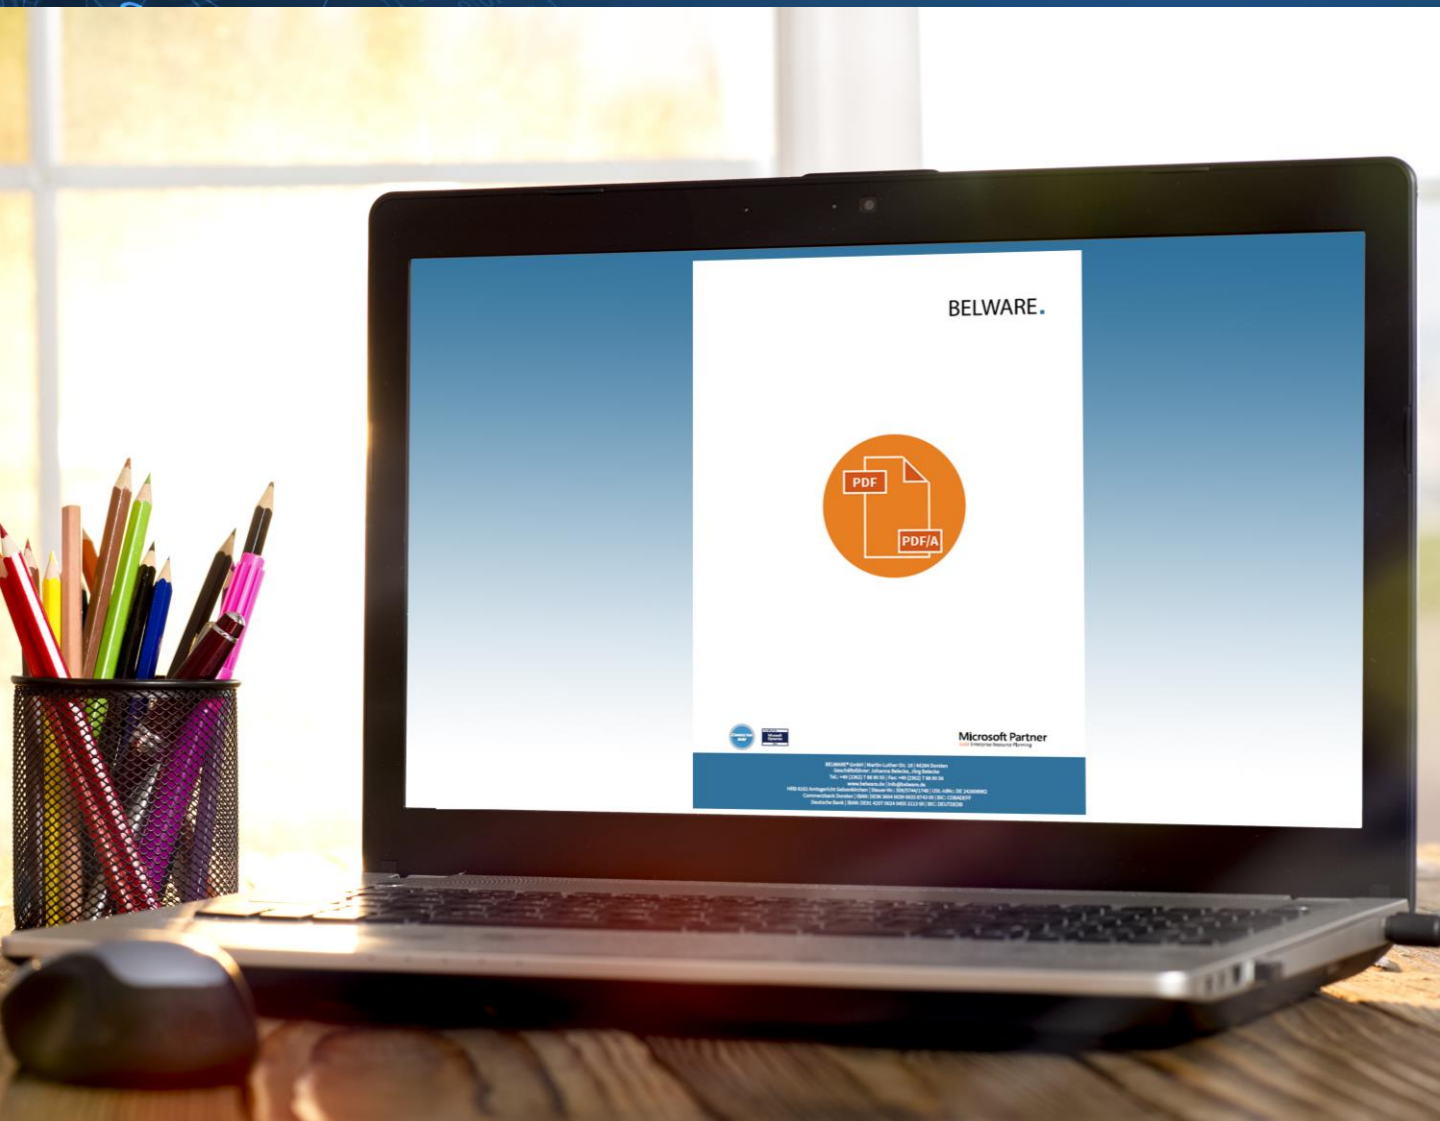

Maintenance - Maintenance of Connector 365 is covered with the subscription. Subscriptions are for one environment within a tenant. Each additional productive environment within a tenant can be purchased at a 50% discount. All sandboxes belonging to the tenant are unlocked free of charge. Clients are covered within one environment with the subscription.

Services - Services used in the form of installation support, support, consulting services and/or training will be charged at an hourly rate of 125€ on a time and material basis in 0.25 units.

If an on-site assignment is desired, additional travel costs and expenses in the amount of 0.70€ per KM driven will be charged.

Note on price changes - We reserve the right to either create new apps or raise prices depending on the scope of new features in the respective apps. We will inform in time! The change will then be adjusted from the next runtime.

Trial versions are possible and can be downloaded directly from the AppSource.

PPFM90	6080	1890€	6085	638€
PPFMUL	6090	2450€	6095	825€

All prices quoted are exclusive of VAT (price refers to per server).

*If you are interested in local or stand-alone processing for Office,
we also offer client and terminal server versions on request.*

pdfPaper FM Tool - for background processing on the serverDynamic integration of predefined backgrounds with folder monitoring and Windows service. Source documents must already be PDF. pdfPaper FM basically works like the client and contains the same features. Here, however, the settings are not made on the client, but - since pdfPaper FM Server works via folder monitoring - directly on the file directories. Several directories can be monitored and provided with different settings.

Maintenance

Maintenance is mandatory in the first year. Maintenance is 20% of the license revenue per year and is due in advance. The maintenance agreement is valid for 12 months at a time and is automatically renewed if the agreement is not terminated one month before expiration.

Maintenance includes updates and patches. For all software products from the manufacturer, the following also applies: New releases (change in the first digit of the version number) are discounted by 50% under this agreement. Licenses for a new release within 6 months after purchase are free of charge for customers with a valid maintenance agreement.

Errors & price changes reserved. All prices are exclusive of VAT.
